Communication Design BFA/Fall 2021

**CUNYTechworks**
UX Design Certification/June 2018

**Kingsborough Community College**
Graphic Design & Animation/Spring 2018

## EXPERIENCE

**E-commerce Product Designer**
Davek Accessories|November 2024 - Present | Manhattan, NY

- Led WCAG remediation across US, Canada, UK, and AU storefronts: menu keyboard behavior, popup and dialog focus (including Klaviyo and third-party app popups), image alt text, and carousels. Tested with WAVE, Lighthouse, NVDA, and keyboard only; WAVE errors fell from 20 to 0 on homepage. Documented every fix in a change log and regression checklist.
- Designed and coded a desktop product page gallery in HTML, CSS, JavaScript, and Liquid: removed about 1,000px of dead space under the product image while keeping the SEO copy, and added hover navigation through the full gallery.
- Engineered the Google Knowledge Panel integration, directly connecting Shopify reviews to Google Merchant Center to fix previously displayed low star ratings, improving organic search trust and click-through rates.
- Produced 38 short-form video ads (6–14s) for Instagram and Facebook, while designing and deploying weekly promotional email templates directly within Klaviyo to support recurring sales campaigns.
- Manage corporate gifting operations end-to-end—designing virtual proofs, measuring logo specs, and performing physical test-prints—while conducting weekly inventory and systems health checks to ensure accurate stock representation.

**UX Designer & Web Developer**
Dataclay | October 2023 - October 2024 | Remote

- Designed layouts for the company's marketing and shop site, including product, pricing, screencast archive, blog, case study, and custom development pages, presenting about three options per page to the technical lead and iterating on his feedback.
- Collaborated closely with supervisors to conceptualize and execute diverse mockups and wireframes for the website, which houses a suite of video creation tools, ensuring alignment with the company's evolving brand identity.
- Leveraged Bricks Builder to translate design concepts into functional web pages, contributing to the development of key sections of the website following the completion of mockups and wireframes.
- Engaged in iterative design processes, incorporating feedback and revisions to optimize user experience and interface functionality.
- Demonstrated proficiency in navigating remote work dynamics, effectively communicating with team members to drive project progress and achieve objectives within established timelines.

**Product Designer**
ETL Group | February 2022 - February 2023 | Manhattan, NY

- Led comprehensive website redesign projects for various clients, resulting in a 20% increase in user engagement and a 15% boost in conversion rates by aligning visual aesthetics and user experiences with brand guidelines.
- Crafted visually captivating images and graphics for digital promotions, including email campaigns, social media, and web advertisements, resulting in a 30% increase in click-through rates and a 25% rise in social media engagement.
- Collaborated closely with clients to understand their unique needs and objectives, delivering tailored design solutions that exceeded client expectations and led to positive client testimonials.
- Collaborated directly with clients to deliver tailored solutions, achieving a 95% user satisfaction rating across post-launch surveys.

**Graphic Design Intern**
Greenwich Village Chelsea Chamber of Commerce | Sep 2021 – Dec 2021 |Remote

- Designed digital and print assets for 3 concurrent campaigns, increasing foot traffic for local merchants by 20% through social media and LinkNYC kiosk content.
